

FORT SASKATCHEWAN FACILITY

*Headquartered in Calgary with operations focused in Western Canada, **KEYERA** operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.*

Our business consists of natural gas gathering and processing, natural gas liquids (NGLs) fractionation, transportation, storage and marketing, iso-octane production and sales and diluent logistic services for oil sands producers.

We are committed to conducting our business in a way that balances diverse stakeholder expectations and emphasizes the health and safety of our employees and the communities where we operate.

Fort Saskatchewan Facility (KFS)

Located in “Alberta’s Industrial Heartland”, KFS includes an NGL processing plant, storage facilities and a series of pipeline connections to Keyera truck and rail terminals in the area.

The NGL processing plant receives NGL feedstock from various sources and splits the NGL mix into saleable products. The storage facilities consist of underground storage caverns and surface storage that holds NGL mix feedstock and specification NGLs. The pipeline system transports NGL mix and specification NGLs from KFS and other NGL processing and storage facilities in the area to Keyera rail and truck terminals in the area for distribution to markets and export rail, truck and pipelines.

PROJECT HISTORY

1972	Constructed
1985	Connected to Cochin, Peace and Federation Pipelines
1993	Dow Fort Saskatchewan tied in to Fort Saskatchewan Pipeline System
2004	Keyera became operator
2008	Truck facility expanded and fourth NGL pipeline added between Edmonton Terminal and Fort Saskatchewan facility
2015	De-ethanizer and fourth brine pond completed
2016	Fractionation expansion and 14 th storage cavern completed
2018	15 th storage cavern completed

Main: 780-998-3791

24-hour emergency: 780-992-2900

FACILITY SPECIFICATIONS (Gross)

Fractionation	65,200 Bbls/d
De-ethanizer	30,000 Bbls/d
Storage	14,115,000 Bbls
Pipelines	372,000 Bbls/d

CONNECTED PIPELINES

Alliance Pipeline
 AEGS (Alberta Ethane Gathering System) Pipeline
 Cochin Pipeline
 Dow/Shell Pipeline
 Federated Pipeline
 FSPL (four lines between Ft. Sask. and Keyera Edmonton Terminal)

OWNERSHIP INTEREST

Keyera (Operator)	76.7%
ExxonMobil Canada Energy	1.99%
Plains Midstream Canada ULC	21.3%

PLANT LOCATION
