

**KEYERA**

### PROJECT HISTORY

<b>1969</b>	Constructed by Shell Canada
<b>1992</b>	Purchased by Suncor Energy
<b>2005</b>	ConocoPhillips Canada became working interest partner
<b>2010</b>	Keyera became operator after acquiring the plant
<b>2014</b>	Wapiti Pipeline and plant inlet expansion completed Plant expanded and condensate stabilizer installed
<b>2018</b>	Liquids handling expansion completed

### PRODUCT DELIVERIES

<b>Sulphur</b>	Outbound by truck
<b>Gas</b>	Alliance Pipeline, TransCanada Pipeline
<b>NGLs</b>	Pembina Peace Pipeline and truck
<b>Condensate</b>	Pembina Peace Pipeline and truck

## SIMONETTE GAS PLANT

*Headquartered in Calgary with operations focused in Western Canada, **KEYERA** operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.*

Our business consists of natural gas gathering and processing, natural gas liquids (NGLs) fractionation, transportation, storage and marketing, iso-octane production and sales and diluent logistic services for oil sands producers.

We are committed to conducting our business in a way that balances diverse stakeholder expectations and emphasizes the health and safety of our employees and the communities where we operate.

### Simonette Gas Plant

Located approximately 92 kilometres southwest of the town of Valleyview, Alberta, the Simonette gas plant is a sour gas processing and liquids stabilization plant supporting liquids-rich Montney and Duvernay development in the area. The plant receives its raw gas and raw liquids from an extensive network of pipelines that service key production areas/zones in Alberta, and offers a full range of gas processing services including NGL recovery, condensate stabilization, and sour gas sweetening. The plant is adding acid gas injection facilities later this year, which provide the most reliable and environmentally responsible method to deal with sour gas, virtually eliminating carbon emissions as compared to other acid gas handling processes.
