

## OKLAHOMA LIQUIDS TERMINAL

*Headquartered in Calgary with operations in Western Canada, Texas and Oklahoma, Keyera operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.*

Our business consists of natural gas gathering and processing; natural gas liquids (NGLs) fractionation, transportation, storage and marketing; iso-octane production and sales; and diluent logistic services for oil sands producers.

We are committed to conducting our business in a way that balances diverse stakeholder expectations and emphasizes the health and safety of our employees and the communities where we operate.

### Oklahoma Liquids Terminal

The Oklahoma Liquids Terminal is a logistics and liquids blending terminal located near Tulsa, Oklahoma. The Terminal receives, blends and delivers diluent, which is transported by pipeline from the Mont Belvieu area to the Chicago area and ultimately into the Alberta market. The Terminal also has exclusive access to a nearby rail-to-truck transloading facility.
