

KEYERA

EDMONTON TERMINAL

*Headquartered in Calgary with operations focused in Western Canada, **KEYERA** operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.*

Our business consists of natural gas gathering and processing, natural gas liquids (NGLs) fractionation, transportation, storage and marketing, iso-octane production and sales and diluent logistic services for oil sands producers.

We are committed to conducting our business in a way that balances diverse stakeholder expectations and emphasizes the health and safety of our employees and the communities where we operate.

Edmonton Terminal

Keyera's Edmonton Terminal includes a rail and truck loading/offloading facility, propane treating and storage facilities, and a number of incoming and outgoing pipelines, including the Rimbey Pipeline and four pipelines connecting the Terminal with Keyera's Fort Saskatchewan facilities. The Edmonton Terminal is a distribution hub for propane, butane and condensate in the Edmonton and Fort Saskatchewan area. This provides the Edmonton Terminal with access to product storage capacity and operational flexibility.

PROJECT HISTORY

- 2001** NGL rail and truck loading/unloading racks built
- 2006** C5+ rail offload rack built
- 2012** Iso-octane and butane conversion project
- 2017** 262,000 Bbls of above ground storage added
