- 2018 Connected to Keylink Pipeline

PRODUCT DELIVERIES

- Sales gas TransCanada Pipeline system
- NGLs Keylink Pipeline
- Condensate Pipeline to market
- Sulphur Truck to market

MINNEHIK BUCK LAKE FACILITY

Headquartered in Calgary with operations focused in Western Canada, KEYERA operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.

Our business consists of natural gas gathering and processing, natural gas liquids (NGLs) fractionation, transportation, storage and marketing, iso-octane production and sales and diluent logistic services for oil sands producers.

We are committed to conducting our business in a way that balances diverse stakeholder expectations and emphasizes the health and safety of our employees and the communities where we operate.

Minnehik Buck Lake Facility

The Minnehik Buck Lake facility is located in Alberta approximately 50 kilometres southwest of the town of Drayton Valley. Plant facilities include inlet separation, gas sweetening, compression, NGL recovery, condensate stabilization, sulphur recovery and power generation. The Plant receives its raw gas from numerous wells connected by an extensive network of pipelines.
