

KEYERA

ALBERTA DILUENT TERMINAL

Headquartered in Calgary with operations focused in Western Canada, KEYERA operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.

Our business consists of natural gas gathering and processing, natural gas liquids (NGLs) fractionation, transportation, storage and marketing, iso-octane production and sales and diluent logistic services for oil sands producers.

We are committed to conducting our business in a way that balances diverse stakeholder expectations and emphasizes the health and safety of our employees and the communities where we operate.

Alberta Diluent Terminal (ADT)

The Alberta Diluent Terminal (ADT) is located on a 90-acre parcel of land north of the Edmonton Terminal in the Edmonton/Fort Saskatchewan energy hub.

ADT features a rail loading/offloading rack, rail storage spurs, a truck offloading/loading rack and above ground storage tanks. The rail rack has a capacity of 50,000 barrels per day and the above ground storage tanks have the capacity to store 342,600 barrels.

ADT has several downstream connections such as the Fort Saskatchewan Pipelines and the Rimbey Edmonton Terminal.

ADT handles condensate, delivered by rail or pipeline, to meet growing needs for diluent by oil sands producers.

PROJECT HISTORY

- 2008** Purchased by Keyera
- 2009** Pipeline tie-in to Keyera's Edmonton Terminal completed
- 2011** Solvent rail & truck facility completed
- 2014** Pipeline connection to Keyera's Fort Saskatchewan pipeline system completed

PRODUCT DELIVERIES

- Sales gas** TransCanada Pipeline
- NGLs** Truck
- Condensate** Truck, Rail and Pipelines
