

KEYERA

SOUTH CHEECHAM RAIL AND TRUCK TERMINAL

Headquartered in Calgary with operations focused in Western Canada, KEYERA operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.

Our business consists of natural gas gathering and processing, natural gas liquids (NGLs) fractionation, transportation, storage and marketing, iso-octane production and sales and diluent logistic services for oil sands producers.

We are committed to conducting our business in a way that balances diverse stakeholder expectations and emphasizes the health and safety of our employees and the communities where we operate.

South Cheecham Terminal

Located 75 kilometres southeast of Fort McMurray, the South Cheecham terminal is designed to provide oil sands producers with essential services within the Athabasca oil sands area. These services include handling diluent, dilbit, solvents and NGLs delivered to the Terminal by pipeline, truck and rail.

PROJECT HISTORY

- 2012** Construction began
- Oct 2013** Official facility opening
- 2017** Rail and truck solvent handling facility commissioned
