

KEYERA

Investor Presentation

February 2024

Forward-Looking Information

To provide readers with information regarding Keyera, including its assessment of future plans, operations and financial performance, certain statements contained herein contain forward-looking information within the meaning of applicable Canadian securities legislation (collectively, “forward-looking information”). Forward-looking information relate to future events and/or Keyera’s future performance. Forward-looking information are predictions only; actual events or results may differ materially. Use of words such as “anticipate”, “continue”, “estimate”, “expect”, “may”, “will”, “project”, “should”, “plan”, “intend”, “believe”, and similar expressions (including negatives thereof), is intended to identify forward-looking information. All statements other than statements of historical fact contained herein are forward-looking information, including, without limitation, statements regarding future dividends, future financial position, operating and financial results and capital and other expenditures of Keyera (including 2024 and future years’ guidance), future returns from capital projects or corporate return on investment, financial and capital targets and priorities, Keyera’s vision, business strategy and plans of management, anticipated growth and proposed activities, future opportunities, expected capacities associated with capital projects, expected sources of and demand for energy, estimated utilization rates, attaining emissions reduction targets, and expected commodity prices and production levels.

Forward-looking information reflect management’s current beliefs and assumptions with respect to such things as outlook for general economic trends, industry forecasts and/or trends, commodity prices, capital markets, and government, regulatory and/or legal environment and potential impacts thereof. In some instances, forward-looking information may be attributed to third party sources. Management believes its assumptions and analysis are reasonable and that expectations reflected in forward-looking information contained herein are also reasonable. However, Keyera cannot assure readers these expectations will prove to be correct, and differences could be material.

All forward-looking information involve known and unknown risks, uncertainties and other factors that may cause actual results, events, levels of activity and achievements to differ materially from those anticipated in the forward-looking information. The principal risks, uncertainties, and other factors affecting Keyera and its business are contained in Keyera’s 2023 Year-End Report dated February 14, 2024, and in Keyera’s Annual Information Form dated February 16, 2023, each filed on SEDAR+ at www.sedarplus.ca and available on the Keyera website at www.keyera.com.

Proposed construction and completion schedules and budgets for capital projects are subject to many variables, including the continued uncertainty of the COVID-19 pandemic; weather; availability of and/or prices of materials and/or labour; customer project schedules and expected in-service dates; contractor productivity; contractor disputes; quality of cost estimating; decision processes and approvals by joint venture partners; changes in project scope at the time of project sanctioning; legislation and regulations and regulatory and other approvals, conditions or delays (including possible intervention by third parties); Keyera’s ability to secure adequate land rights and water supply; and macro socio-economic trends. As a result, expected timing, costs and benefits associated with these projects may differ materially from descriptions contained herein. Further, some of the projects discussed herein are subject to securing sufficient producer/customer interest and may not proceed, or proceed as expected, if sufficient commitments are not obtained. Typically, the earlier in the engineering process that projects are sanctioned, the greater the likelihood that the schedule and budget may change.

In addition to factors referenced above, Keyera’s expectations with respect to future returns associated with: (i) growth capital projects sanctioned and in development as of the date hereof, and (ii) the KAPS project, are based on a number of assumptions, estimates and projections developed based on past experience and anticipated trends, including but not limited to: capital cost estimates assuming no material unforeseen costs; timing for completion of growth capital projects; customer performance of contractual obligations; reliability of production profiles; commodity prices, margins and volumes; tax and interest and exchange rates; availability of capital at attractive prices; and no changes in legislative, regulatory or approval requirements, including no delay in securing any outstanding regulatory approvals.

This Presentation includes historical, current and forecast market and industry data that has been obtained from third party or public sources. Although management of Keyera believes such information to be reliable, none of such information has been independently verified by Keyera.

All forward-looking information contained herein are expressly qualified by this cautionary statement. Readers are cautioned they should not unduly rely on this forward-looking information and that information contained in such forward-looking information may not be appropriate for other purposes. Further, readers are cautioned that the forward-looking information contained herein is made as of February 14, 2024. Unless required by law, Keyera does not intend and does not assume any obligation to update any forward-looking information. Further information about the factors affecting forward-looking statements and management’s assumptions and analysis thereof, is available in filings made by Keyera with Canadian provincial securities commissions, which can be viewed on SEDAR+ at www.sedarplus.ca.

Non-GAAP and Other Financial Measures

This presentation refers to certain financial and other measures that are not determined in accordance with Generally Accepted Accounting Principles (GAAP) and as a result, may not be comparable to similar measures reported by other entities. Management believes that these supplemental measures facilitate the understanding of Keyera's results of operations, leverage, liquidity and financial position. These measures do not have any standardized meaning under GAAP and therefore, should not be considered in isolation, or used in substitution for measures of performance prepared in accordance with GAAP. For additional information on these non-GAAP and Other Financial Measures, including reconciliations to the most directly comparable GAAP measures for Keyera's historical non-GAAP financial measures, refer to Management's Discussion and Analysis (MD&A) for the year ended December 31, 2023 which is available on SEDAR+ at www.sedarplus.ca and Keyera's website at www.keyera.com. Specifically, the sections of the MD&A titled "Non-GAAP and Other Financial Measures", "Segmented Results of Operations", "EBITDA and Adjusted EBITDA", "Dividends: Funds from Operations, Distributable Cash Flow and Payout Ratio", and "Adjusted Cash Flow from Operating Activities and Return on Invested Capital" include information that has been incorporated by reference for these non-GAAP and Other Financial Measures.

Realized margin from the Marketing segment, realized margin from the Gathering and Processing (G&P) segment, realized margin from the Liquids Infrastructure segment, realized margin from the fee-for-service business segments, adjusted EBITDA, compound annual growth rate (CAGR) for adjusted EBITDA holding Marketing constant, distributable cash flow (DCF), DCF per share, payout ratio, and return on invested capital (ROIC) are all non-GAAP or Other Financial Measures referenced in this presentation. The most directly comparable GAAP measure to realized margin from the Marketing, G&P and Liquids Infrastructure segments is operating margin from these same segments, respectively. The most directly comparable GAAP measure to adjusted EBITDA is net earnings. The most directly comparable GAAP measure to DCF is cash flow from operating activities. DCF per share and payout ratio are non-GAAP ratios that use DCF as a component of the ratio. ROIC is only prepared on an annual basis; therefore, refer to the MD&A for the year ended December 31, 2023 for additional details related to this financial measure.

This presentation includes certain non-GAAP and Other Financial Measures that include forward-looking information or cannot be incorporated by reference to the MD&A. Refer below for additional information related to these measures.

Realized Margin from the Marketing Segment

The guidance for base realized margin from the Marketing segment (or Marketing realized margin) has been increased to a range of \$310 million to \$350 million (previously was \$250 million to \$280 million). The following includes the equivalent historical measures for this financial measure.

	For the year ended December 31,	
	2023	2022
Marketing Realized Margin <i>(Thousands of Canadian dollars)</i>		
Operating margin – Marketing	554,251	414,973
Unrealized gain or risk management contracts	(75,284)	(17,552)
Realized margin – Marketing	478,967	397,421

Realized Margin from the Fee-for-Service Business Segments

Realized margin from the fee-for-service business segments, or fee-for-service realized margin (defined as realized margin from the Gathering and Processing and Liquids Infrastructure segments), is a non-GAAP financial measure that is utilized in this presentation; however, is not included in the MD&A.

Fee-for-service realized margin is used to assess the financial performance of Keyera's ongoing operations in its G&P and Liquids Infrastructure segments without the effect of unrealized gains and losses on commodity-related risk management contracts related to future periods. The following is a reconciliation of fee-for-service realized margin to the most directly comparable GAAP measure, operating margin for the G&P and Liquids Infrastructure segments.

	For the year ended December 31,	
	2023	2022
Fee-for-Service Realized Margin <i>(Thousands of Canadian dollars)</i>		
Operating margin – Fee-for-Service	878,897	761,779
Unrealized loss (gain) or risk management contracts	11,747	(9,095)
Realized margin – Fee-for-Service	890,644	752,684

Compound Annual Growth Rate (CAGR) for Adjusted EBITDA holding Marketing constant (previously disclosed as CAGR for Adjusted EBITDA from the Fee-for-Service Business)

CAGR is calculated as follows:

$$\text{CAGR} = \left[\frac{\text{End of the period}^*}{\text{Beginning of the period}^*} \right]^{\frac{1}{\text{Number of Years}}} - 1$$

*Utilizes beginning and end of period adjusted EBITDA as defined below.

CAGR for adjusted EBITDA holding Marketing constant is intended to provide information on a forward-looking basis. This calculation utilizes beginning and end of period adjusted EBITDA, which includes the following components and assumptions: (i) forecasted realized margin for the G&P and Liquids infrastructure segments, (ii) realized margin for the Marketing segment, which is held at a value within the expected base realized margin between \$310 million and \$350 million (previously between \$250 million and \$280 million), and (iii) adjustments for total forecasted general and administrative, and long-term incentive plan expenses. During the fourth quarter of 2023, Keyera revised the label of this metric to "CAGR for Adjusted EBITDA holding Marketing constant" (previously disclosed as CAGR for Adjusted EBITDA from the Fee-for-Service Business). The reason for this change is to more accurately reflect the meaning of the metric and the inclusion of Marketing cash flows which are not fee-for-service cash flows. This revision did not impact the composition of the metric.

Why Invest In Keyera?

Compelling Risk-Adjusted Returns

Strong ESG Performance

Emissions¹ on intensity and absolute basis **lowered by 13.5% and 6%** from 2019 to 2022

Emissions Reduction Target: 25% and 50% by 2025 and 2035 from 2019 levels

Compensation tied to ESG Performance

Disclosures aligned with internationally recognized standards

Financial Strength

Low leverage of 2.2x net debt/adjusted EBITDA^{2,3} at the end of 2023

Investment Grade Credit Ratings

Available **liquidity of \$1.05 billion** at the end of 2023

All term debt at fixed interest rate

Sustainable Dividend Growth

Current Annual Dividend: **\$2 per share**

Dividend sustainability underpinned by financial strength

Dividend growth supported by growth in stable long-term fee-for-service cash flow

Payout ratio² target of **50-70% of distributable cash flow (DCF)²**

High-Quality Assets

High barrier-to-entry assets with access to **highest value markets**

Integrated value chain maximizes margins

Accelerating the use of **technology and innovation**

Value Creation Track Record

Clearly defined **financial framework** and **capital allocation priorities⁴**

Avg. 5-year ROIC²: 15%
FY23 ROIC: 16%^{2,5}

CAGR of 8% for DCF²
and 6% for dividends^{2,6} on a per share basis since 2008

STRONG FOCUS ON TOTAL SHAREHOLDER RETURN

Demonstrating ESG Leadership

Long-Term Value Creation is Consistent with Strong ESG Performance

BBB (2018) → A* (2022)

*Rating: A is better

41st (2018) → 7th* (2022)

*Percentile: Lower is better

D (2018) → B* (2022)

*Rating: B is better

31st (2018) → 51st* (2022)

*Score: Higher is better

Keyera can play a leading role in the transition to a low carbon economy

E

Meaningful emissions reduction to date

- Emission intensity lowered by 13.5% from 2019 to 2022
- Absolute emissions down by 6% from 2019 to 2022

S

Diversity & Inclusion program update

- 50% female SVP
- 36% female board directors

G

Strong Corporate Governance

- 100% independent board¹
- 98% average say on pay voting result
- Compensation linked to ESG performance

Disclosure

Transparent ESG Disclosures

- Disclosures aligned with global frameworks
- Climate Report and ESG Reports

By **2025**, reduce our emissions intensity by

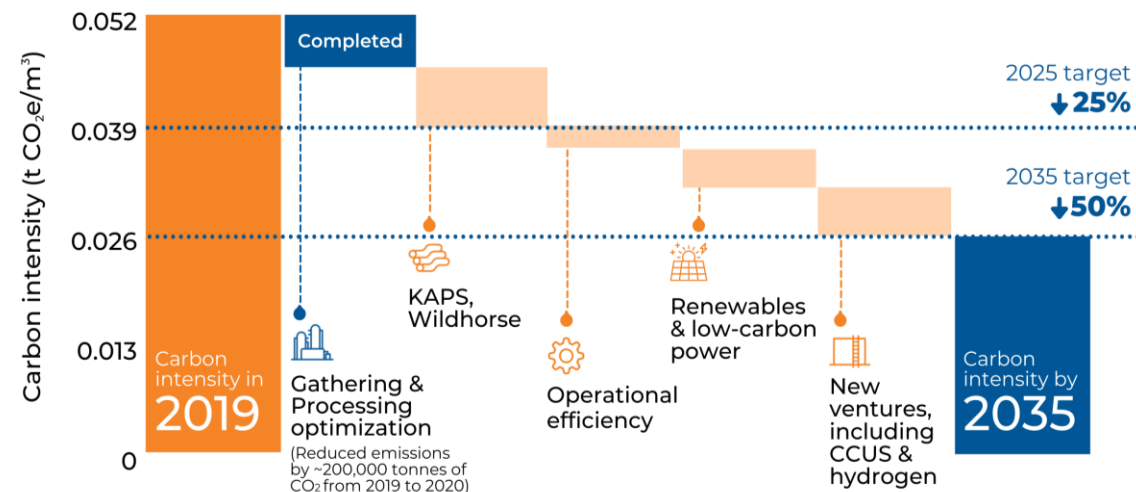

25%

from 2019 levels

By **2035**, reduce our emissions intensity by

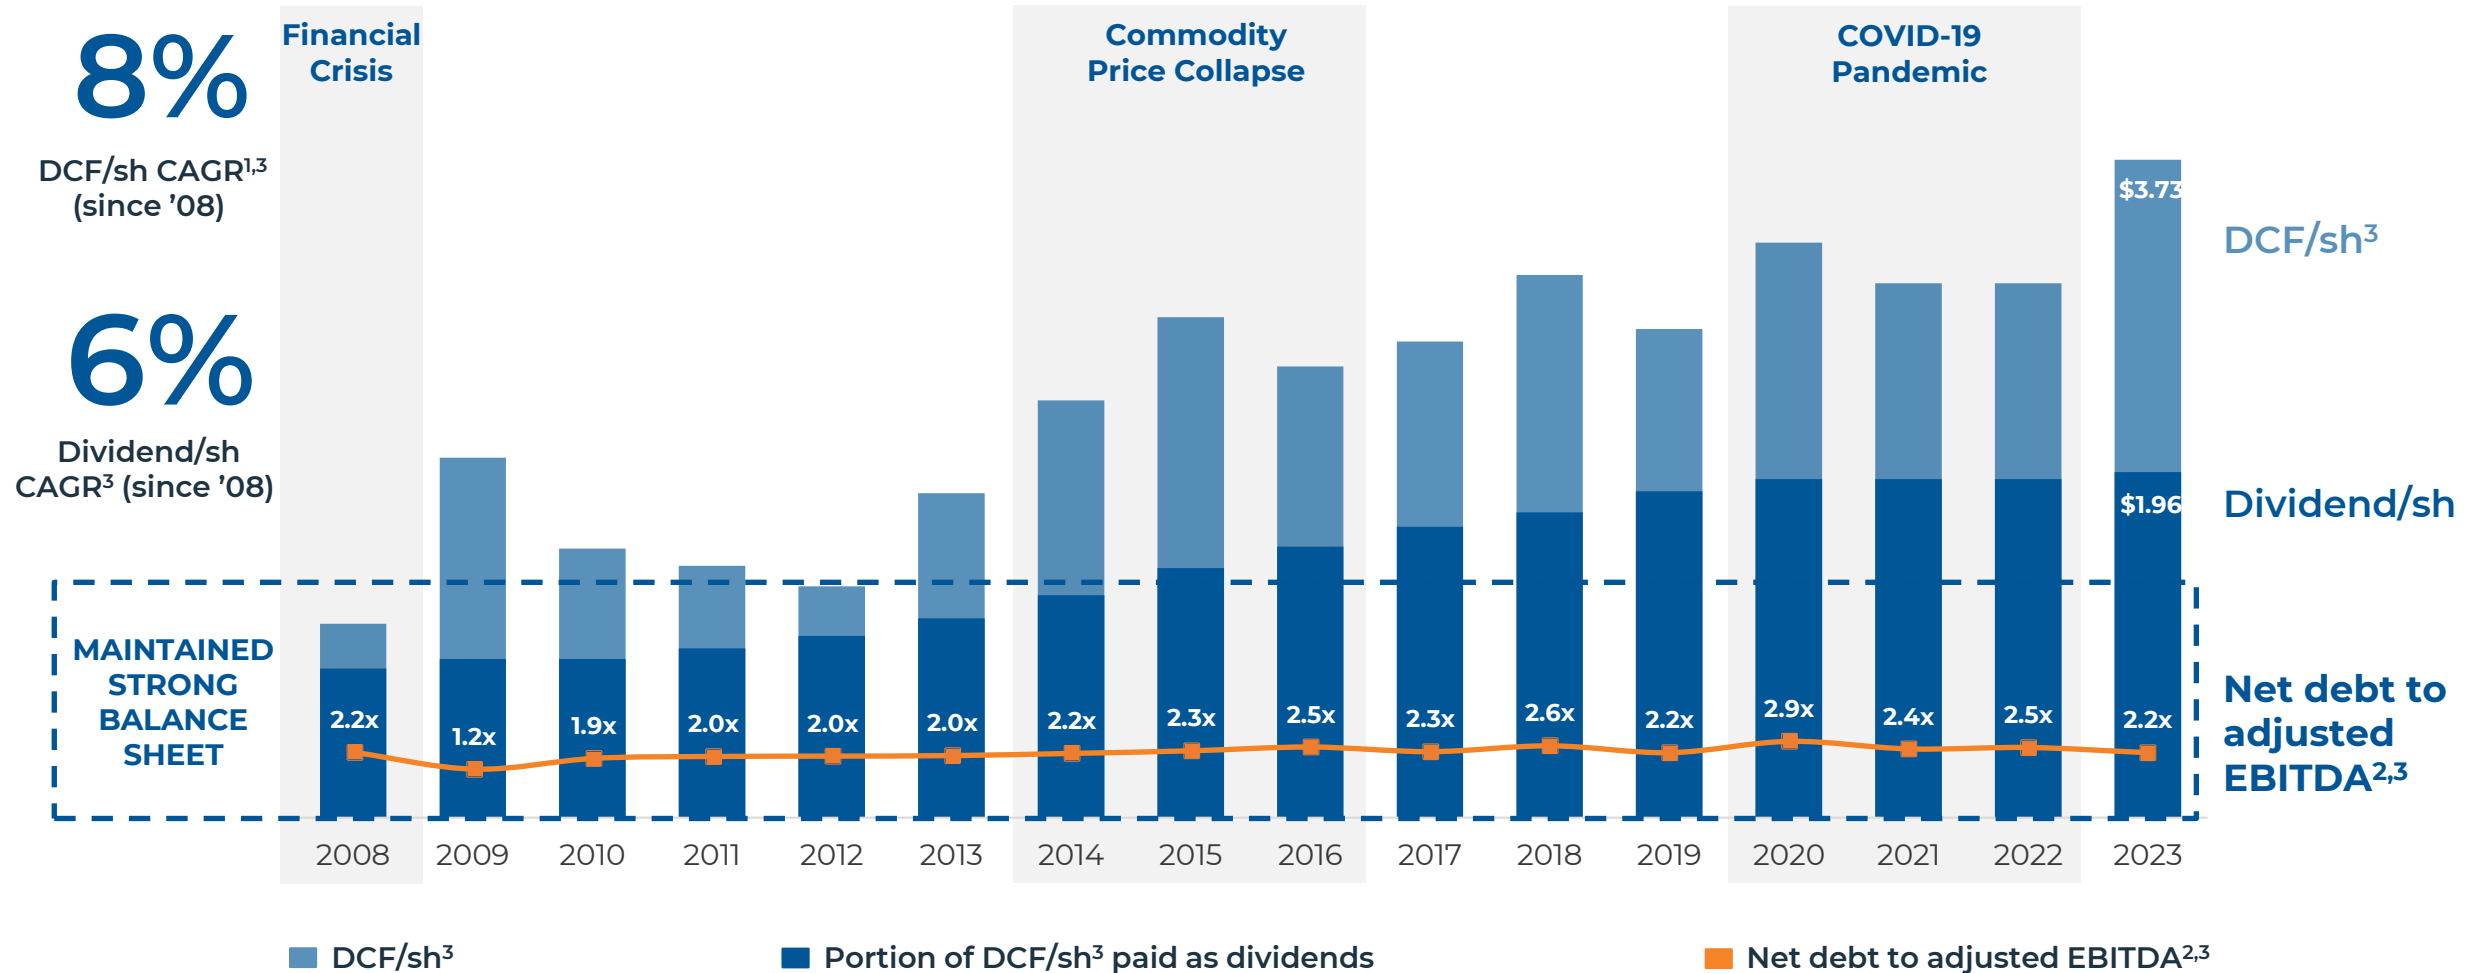

50%

from 2019 levels

Sustained Dividend Growth Through Capital Discipline

Target Payout Range 50%-70% of Distributable Cash Flow³ (“DCF”)

Our Financial Framework

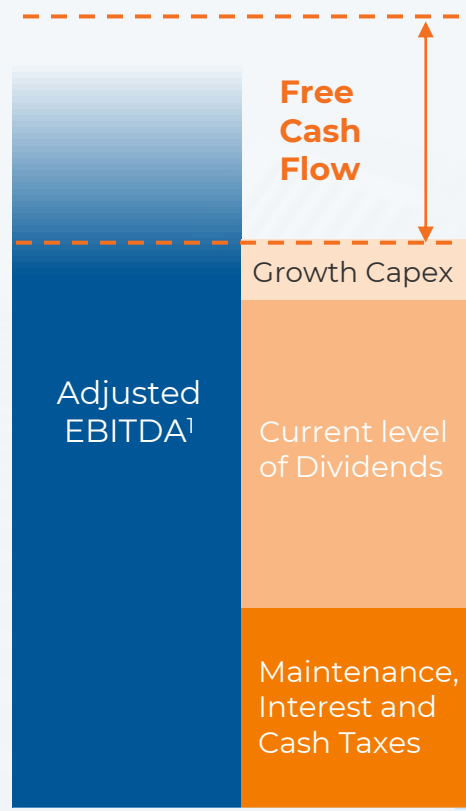

Guiding Our Efforts to Generate Superior Risk-Adjusted Returns

		Target	2023A
Preserve Financial Strength and Flexibility	Credit Ratings	BBB	BBB/BBB
	Net Debt / Adjusted EBITDA ^{1,2}	2.5x - 3.0x	2.2x
Invest for Margin Growth and Cash Flow Stability	Corporate ROIC ¹	>12%	16%
Increasing Cash Returns to Shareholders	Dividend Payout Ratio ¹	50% - 70%	53%
	Share Buyback	Use opportunistically	

Strong Free Cash Flow Generation in 2024

Sources and uses

Adjusted EBITDA¹ Vs. Cash Uses

2024E

2024 Free Cash Flow Uses

- Pay down short-term debt, building balance sheet optionality
- Sustainable dividend growth
- Potential for share buybacks, preference for capital efficient growth investments

Capital Allocation Priorities

Non-Discretionary

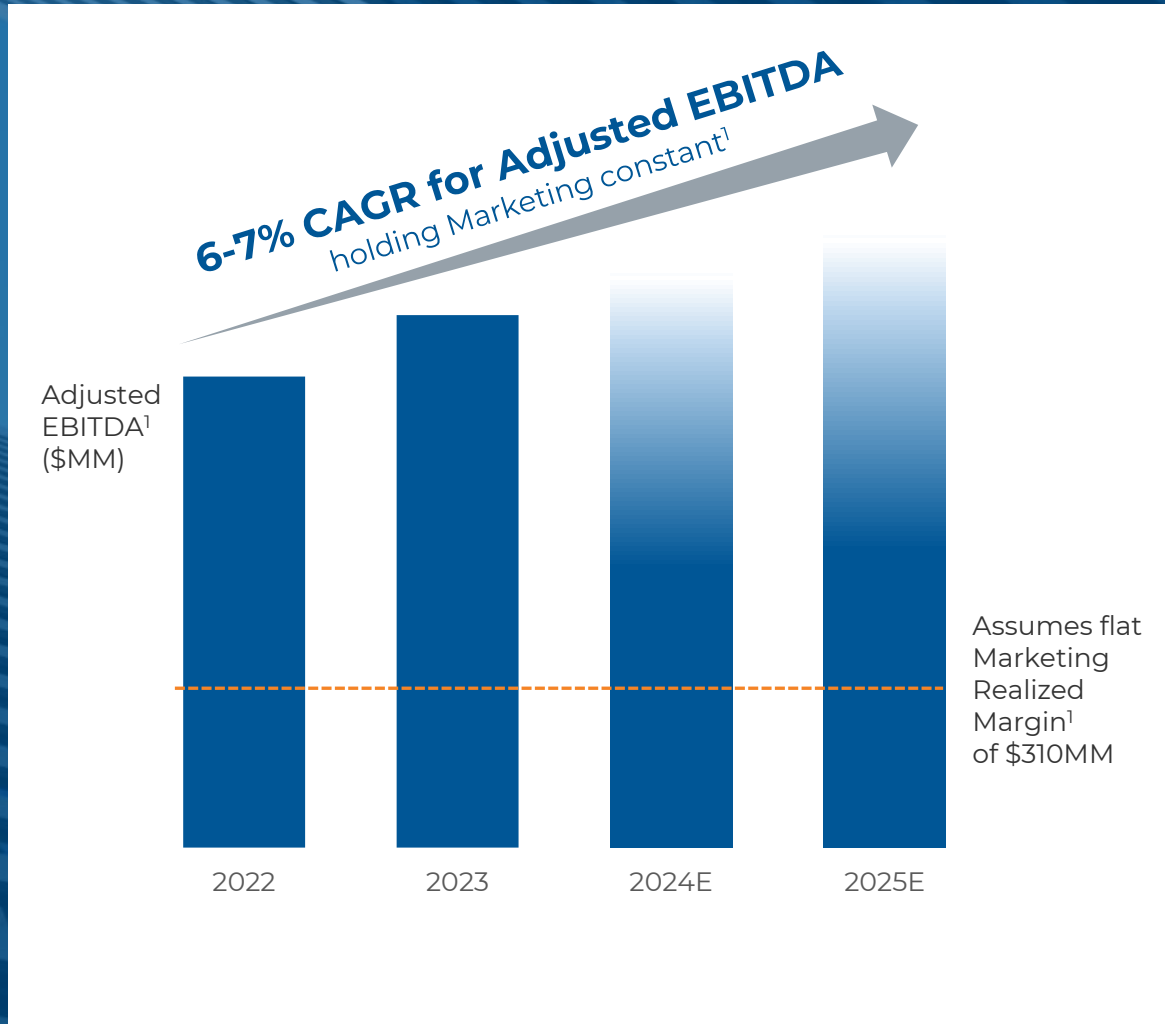

- 1 Fund maintenance capital
- 2 Maintain balance sheet strength
- 3 Pay current dividend

Discretionary

- 4 Allocate remaining capital
 - Further debt reduction
 - Dividend growth
 - Growth capital
 - Share buybacks

Expected to Reach High End of Growth Target

6-7% CAGR for adjusted EBITDA holding Marketing constant¹

Fee-For-Service Growth Drivers '22-'25

>20% realized margin¹ growth since beginning of '22; Near-term growth requires little incremental capital

Gathering & Processing

- Filling available capacity at Wapiti
- Pipestone Gas Plant expansion (complete Dec 2023)

Liquid Infrastructure

- Continued ramp-up of KAPS
- Acquisition of additional 21% stake in KFS
- Re-contracting of fractionation and other services at KFS under stronger terms

Growth Drivers 2025+

Projects subject to strong contractual underpinning and Board sanction

- KAPS Zone 4 expansion
- KFS Frac II debottleneck
- KFS Frac III expansion
- Low Carbon Hub Strategy

Strong Financial Position

- 2.2x net debt to adjusted EBITDA^{1,2} at the end of YE/23
- Conservative payout ratio¹
 - 53% for 2023 (target of 50 - 70%)
- Investment grade credit ratings
 - S&P Global: Upgraded to BBB/Stable in September 2023
 - DBRS Limited: Affirmed, BBB/Stable
- Total liquidity of \$1.05B at the end of YE/23 with:
 - \$470 MM drawn on \$1.5B credit facility
 - \$20 MM cash on hand
- All term debt at fixed rates

Long-term debt maturities (C\$ MM)³ (excludes drawings under revolver)

Managing Cash Flow Stability

Realized Margin¹ from Investment Grade Customers and Take-or-Pay Contracts

Our Integrated Value Chain

High Barrier-to-Entry Asset Base with Access to High Value Markets

Raw Gas

NGL

Spec Products

External Markets

Customers

Gathering & Processing

Liquids Infrastructure

Marketing

End Users

- Strategically located gas plants in the liquids-rich Western Alberta
- 4,400 kilometers of gas gathering network

- Highly utilized fractionation, storage, transportation and upgrading assets with high barriers to entry
- Industry-leading condensate system
- Largest underground storage position in Alberta

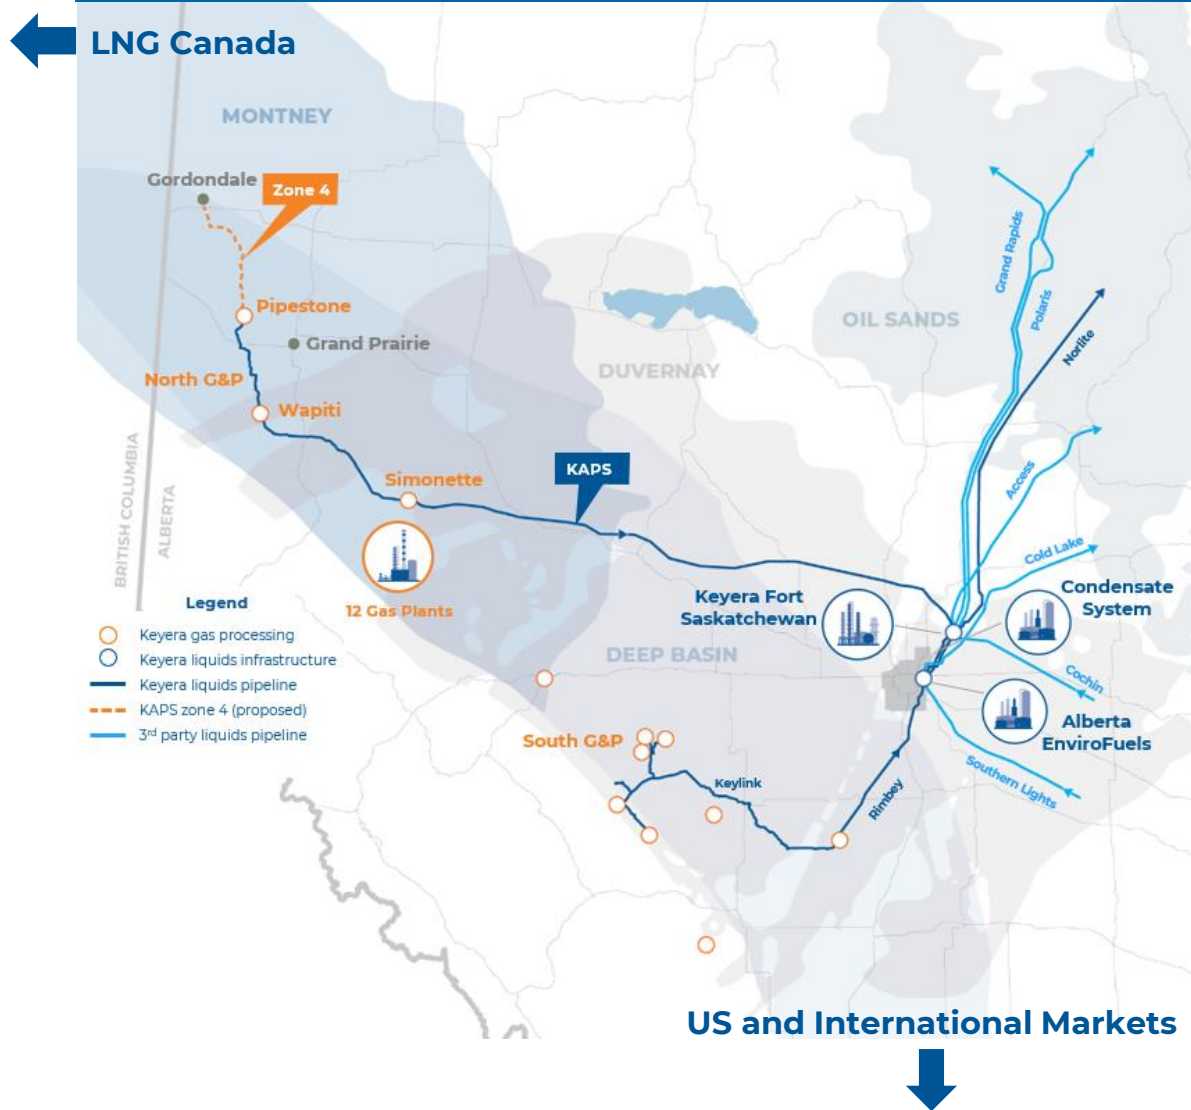

- Utilizes Keyera's infrastructure to access highest value markets
- Demonstrated effective risk management program

Difficult and Cost Prohibitive to Replicate Our Asset Base

Delivering Energy Infrastructure Solutions

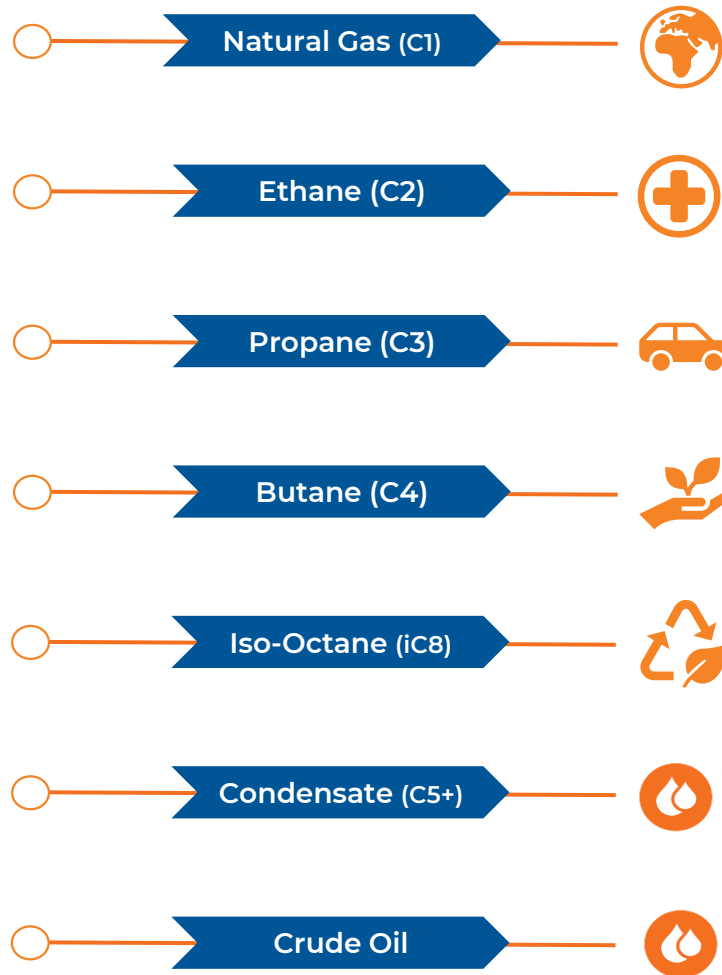

Focused on Maximizing Customer Netbacks

Energy Infrastructure

+

Marketing

Demand Drivers

- LOW-EMISSIONS ENERGY SOURCE
ENERGY SECURITY
- MEDICAL GRADE PLASTIC,
STERILE PACKAGING
- LIGHT WEIGHTING AUTOMOTIVE,
FOOD PACKAGING, HEATING
- LOWER INTENSITY SOLVENTS, OIL
SANDS ESG TARGETS
- ENVIRONMENTAL STANDARDS,
CLEAN BURNING ENGINES
- OIL SANDS DILUENT
- GROWTH IN WORLD ENERGY
DEMAND, ENERGY SECURITY

Marketing: A Unique Competitive Advantage

Physical business and natural extension of integrated value chain that enhances returns

Marketing is a Physical Business

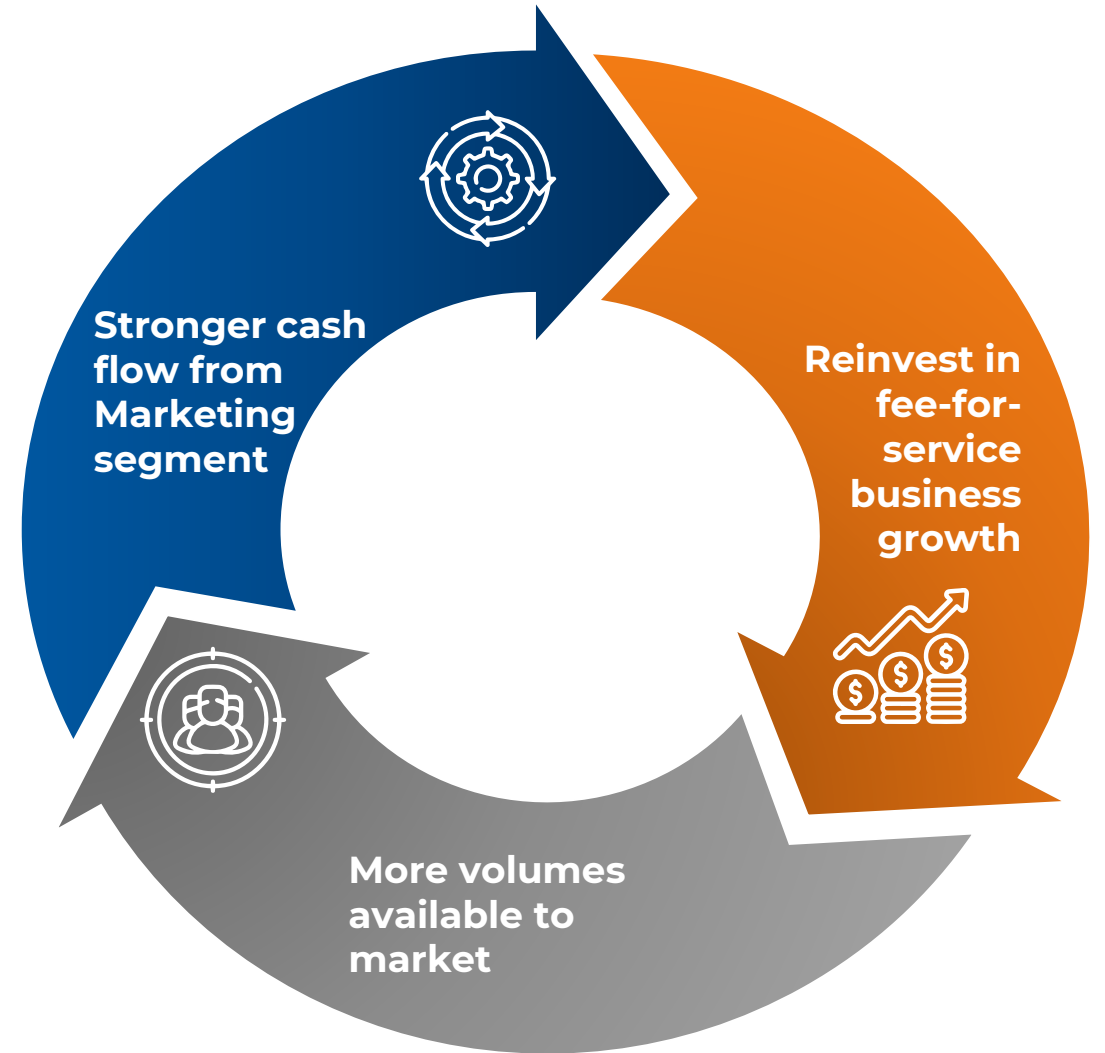

Products

Consistently Delivering Above Peer Average ROIC¹

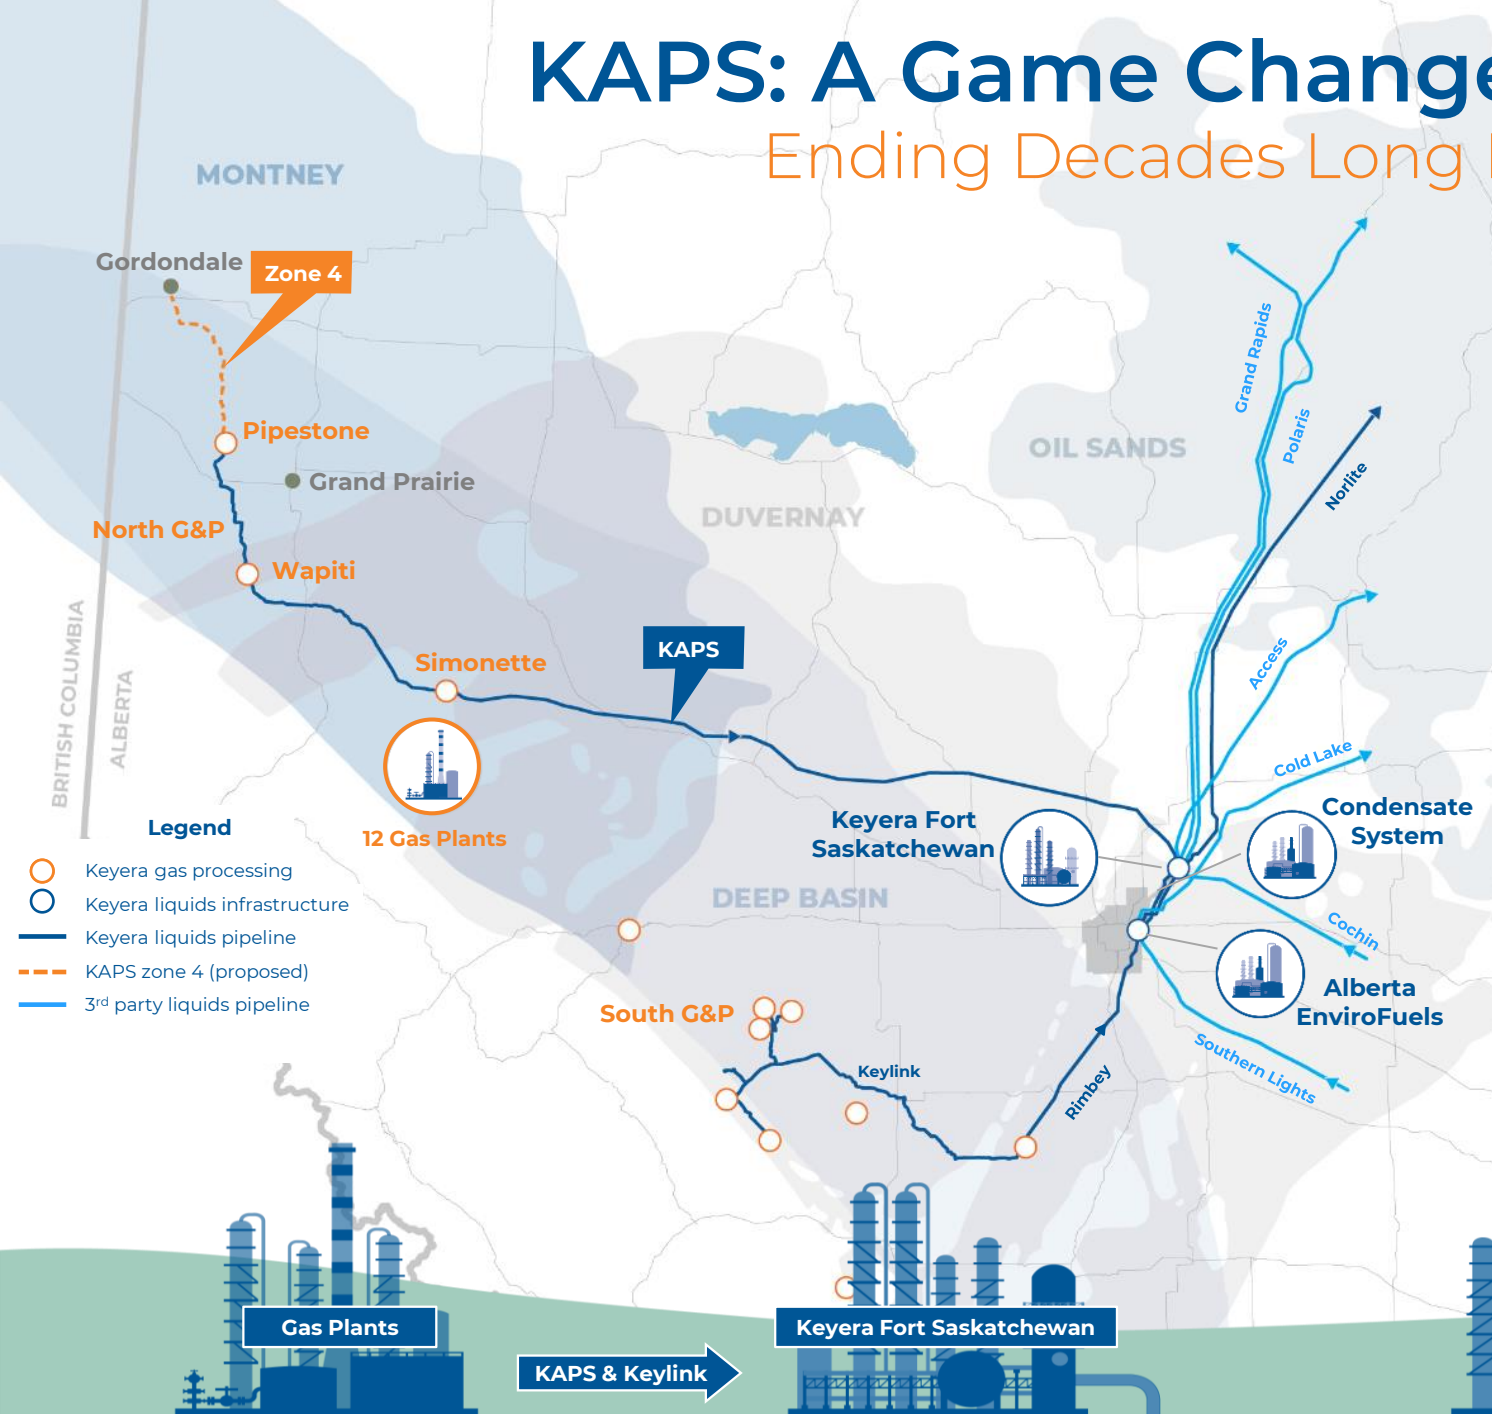

Source: Scotiabank

KAPS: A Game Changer for Keyera

Ending Decades Long Monopoly

Significantly Improves Our Competitiveness

- ✓ Fully Integrates our value chain
- ✓ Allows to better compete for volumes and earn full-value chain returns
- ✓ Offer customers a much-needed competitive alternative on a newer pipe
- ✓ Positions Keyera for additional future growth opportunities such as Zone-4, frac debottlenecks and expansion

Gas Plants

KAPS & Keylink

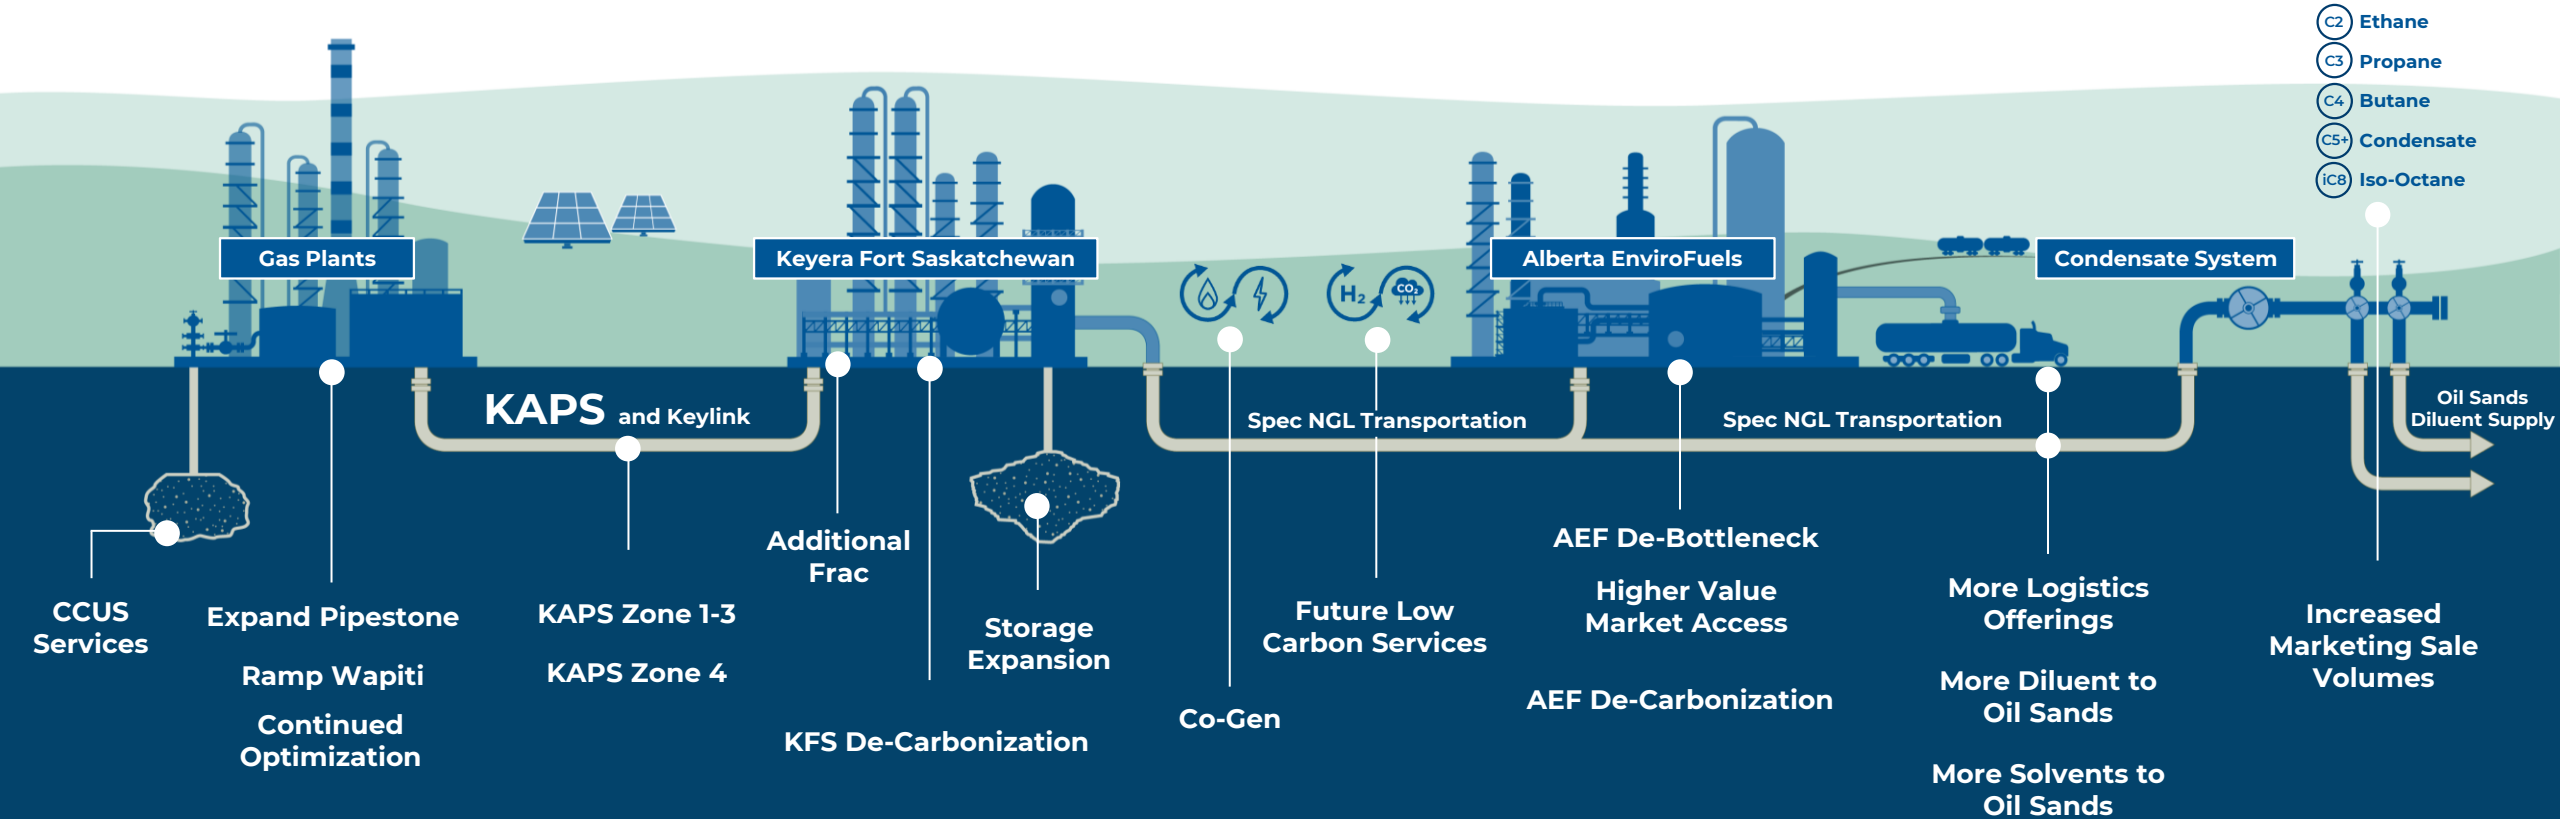

Keyera Fort Saskatchewan

Alberta EnviroFuels

Condensate System

Growth Across Our Integrated Value Chain

Projects Paced to be Internally Funded

Drivers Of Additional Margin Growth and Returns

Playing A Role In The Energy Transition

Transitioning to A Low-Carbon Economy

Carbon Capture & Storage

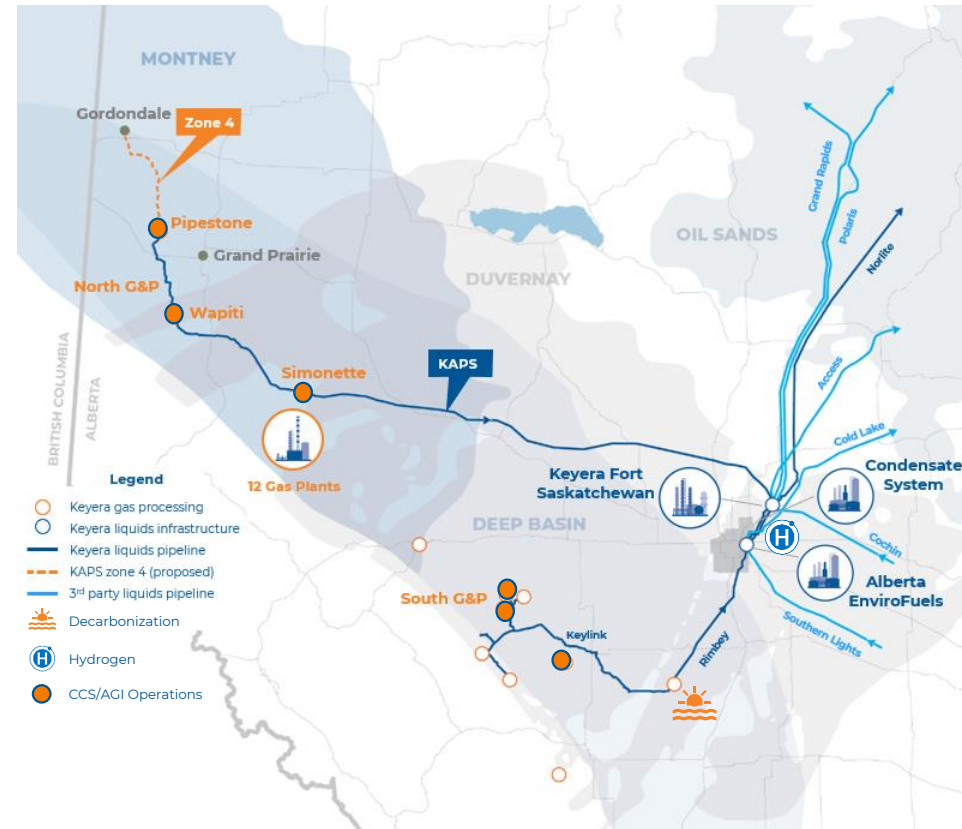

- Acid gas injection at six of our existing locations¹
- Potential to provide CCS services for customer

Emissions Reduction

- Emissions on intensity and absolute basis lowered by 13.5% and 6% from 2019 to 2022
- Actively exploring co-generation opportunities to further lower our overall emissions

Decarbonizing

- 10% of current commercial power supplied by solar via power purchase agreement (PPA)
- Signed new carbon-free solution PPA to start in 2025. Combined, these PPAs will account for 40% of Keyera's commercial power needs

Clean Fuels

- Exploring opportunities to help refiners meet CFS requirements using iso-octane
- Further enhance the value of iso-octane through decarbonization

Hydrogen

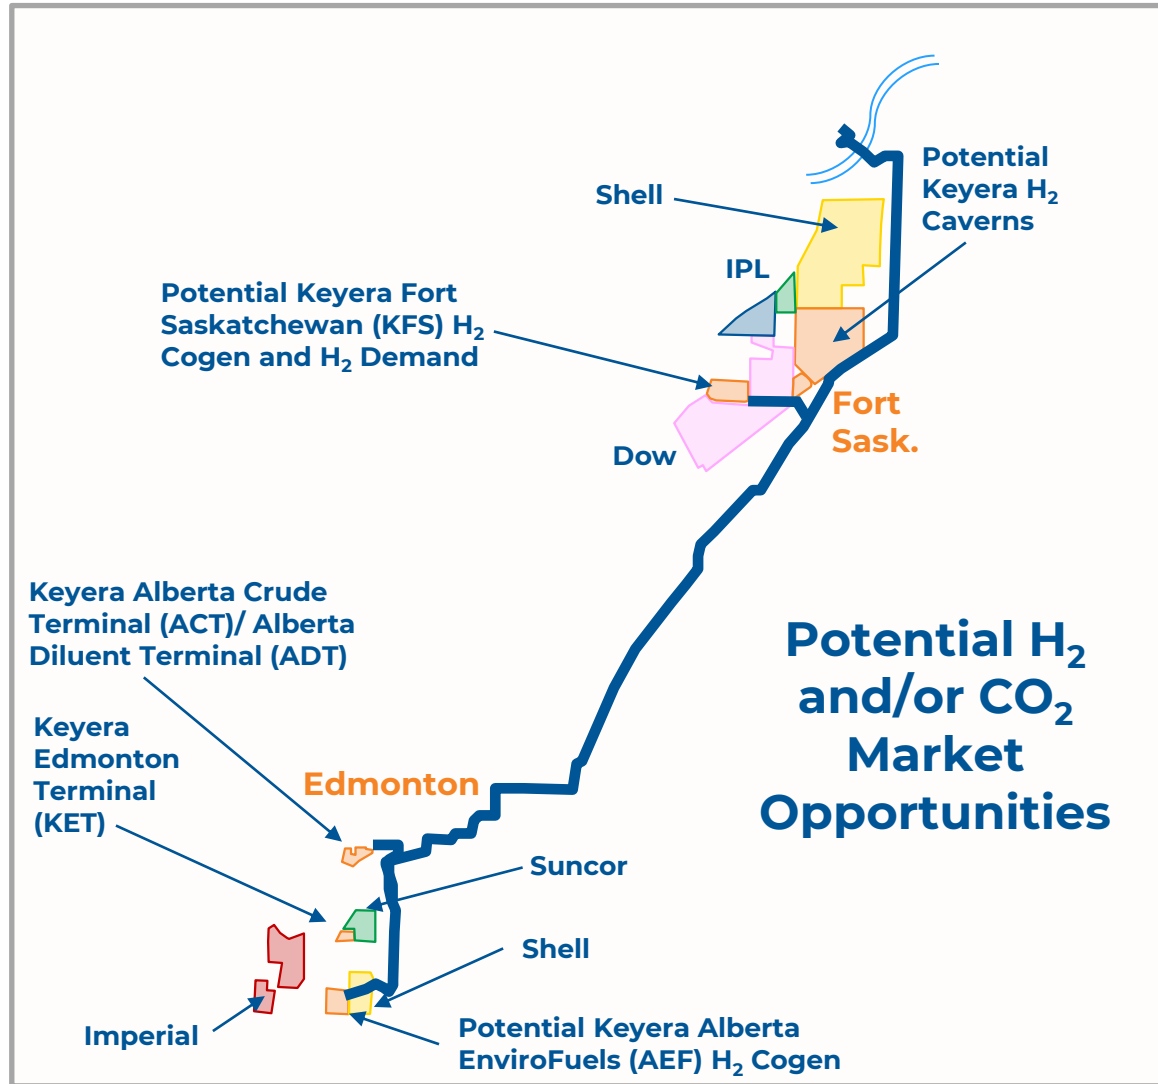

- 1,290 acres of undeveloped land available for H₂ development
- Existing H₂ production
- Existing H₂ pipeline
- Options for H₂ cavern storage

Solvents

- Help decarbonize oilsands production through solvents supply. Solvents include propane and butane

Building A Strong Energy Transition Business

Unique Ability to Evolve Existing Asset Base through Energy Transition

2024 Guidance

2024 Guidance	
Growth Capital Expenditures:	\$80-\$100 MM
Maintenance Capital Expenditures:	\$90-\$110 MM
Base Marketing Realized Margin ¹ (2024 Marketing guidance to be updated with Q1/24)	\$310-\$350 MM
Cash Taxes:	\$45-\$55 MM

2024 Planned Turnarounds and Outages		
Alberta EnviroFuels outage (new)	6 weeks	Q2 2024
Keyera Fort Saskatchewan Fractionation Unit 1 outage	5 days	Q2 2024
Keyera Fort Saskatchewan Fractionation Unit 2 outage	7 days	Q2 2024
Keyera Fort Saskatchewan Fractionation Unit 1 outage	7 days	Q3 2024
Strachan Gas Plant turnaround	2 weeks	Q3 2024
Wapiti Gas Plant turnaround (moved from Q2)	3 weeks	Q3 2024
