Headquartered in Calgary with operations focused in Western Canada, **KEYERA** operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.

Our business consists of natural gas gathering and processing; natural gas liquids (NGLs) fractionation, transportation, storage and marketing; iso-octane production and sales; and diluent logistic services for oil sands producers.

We are committed to conducting our business in a way that balances diverse stakeholder expectations and emphasizes the health and safety of our employees and the communities where we operate.

**Base Line Terminal**

Keyera partnered with Pembina to construct 12 crude oil storage tanks. The Terminal became fully operational in 2018 and provides 4.8 million barrels of capacity. It is located adjacent to Keyera’s Alberta EnviroFuels site and is connected to Pembina’s Edmonton area storage and rail terminals.

**Base Line Terminal is located in Edmonton, Alberta.**

**Facility Specifications**
- **Storage Capacity**: 4,800,000 Bbls
- **12 crude oil storage tanks**

**Connected Terminals**
- Alberta Crude Terminal, Edmonton South Rail Terminal, North 40 Terminal, local refinery

**Ownership Interest**
- Keyera (non-operating owner) 50%
- Pembina (operator) 50%
