RULES AND REGULATIONS GENERAL APPLICATION

Petroleum Products will be transported through carrier's facilities only as provided in these rules and regulations.

ITEM 5 ABBREVIATIONS AND DEFINITIONS

As used in these rules and regulations, the following terms will have the following meanings:

"Barrel" means 42 United States gallons, 34.9722 Canadian gallons at 60° Fahrenheit.

"Carrier" means ~~[C] Plains LPG Services, L.P.~~ [N] MTC NGL LLC and any other pipeline company which transports liquids accepted for transportation under this tariff.

"F.E.R.C." means Federal Energy Regulatory Commission.

"No." means number.

"Light Hydrocarbon Liquid (LHL) Products" means and is limited to mixtures of ethane and heavier hydrocarbons with a maximum end boiling point of 365°.

"Shipper" means the party who contracts with the Carrier for the transportation of Light Hydrocarbon Liquid Products under the terms of this tariff.

"Tender" means an offer by a Shipper to the Carrier of a stated quantity of LHL Products for transportation from a specified origin to a specified destination.

ITEM 10 COMMODITY

Under this tariff the Carrier is engaged in the transportation of Light Hydrocarbon Liquid Products by pipeline and will not accept any other commodity for transportation hereunder.

ITEM 15 TENDERS

Light Hydrocarbon Liquid Products will be transported only under a Tender accepted by the Carrier from facilities connected to Carrier's system when a tariff covering the movement is lawfully in effect.

ITEM 20 QUANTITIES

A Tender will be accepted only when the annual quantity covered thereby will be made available for transportation at a daily rate not exceeding 10% of the average annual daily rate or in quantities and at time to be specified by the Carrier.

ITEM 25 QUALITY OF LHL PRODUCTS ACCEPTABLE

Carrier will accept for transportation marketable Light Hydrocarbon Liquid Products of specific gravity not less than 0.30 or greater than 0.70 and with vapour pressure not greater than 700 psi at operating temperatures. Product mixture must not contain more than 100 ppm of sulphur by weight or 0.2% by volume of unsaturated hydrocarbons.

The products accepted for transportation must not materially affect the quality of other shipments being transported or cause a disadvantage to any other Shipper. A Shipper shall furnish Carrier a certificate showing the detailed specifications of all products tendered for transportation.

ITEM 30 VARIATIONS IN QUALITY

LHL Products will be accepted for transportation only upon condition that said LHL Products will be subject to such changes in gravity, colour, quality, or other characteristics while in transit as may result from normal pipeline operations.

ITEM 35 DELIVERY

- (a) Since Carrier does not have storage available for shipper's LHL Products at origin, destination, or intermediate points, no duty to transport will arise until evidence satisfactory to Carrier has been furnished that Shipper or consignee has provided necessary storage and facilities to which Carrier is connected at origin, destination or intermediate points, and has made necessary arrangements for acceptance of delivery at destination of the same quantity of petroleum products offered for transportation at origin.
- (b) In the event Carrier has accepted LHL Products for transportation in reliance upon shipper's representation as to acceptance at destination, and there is a failure to take such LHL Products at destination as provided in this tariff, then and in such an event, Carrier shall have the right, on 24-hour telegraphic notice to Shipper, to sell such LHL Products at private sale for the best possible price obtainable. The Carrier may be a purchaser at such sale. Out of the proceeds of said sale, Carrier may pay itself all transportation charges and other necessary expense of caring for and maintaining the petroleum products, and the balance shall be held for whomsoever may be lawfully entitled thereto.

ITEM 40 MEASURING

All LHL Products tendered for transportation shall be measured by facilities provided by the Carrier at the point of receipt from the Shipper. Volumes measured shall be corrected as to temperature and pressure from observed values. Alternately quantities may be measured on a mass basis. Method of measurement shall be in accordance with accepted industry standards for the material transported.

ITEM 45 RATES APPLICABLE

LHL Products transported shall be subject to the rates in effect on dates such LHL Products are received by the Carrier.

ITEM 50 PAYMENT OF CHARGES

The Shipper shall be responsible for payment of transportation charges applicable to the shipment, and if required, shall repay such charges or furnish guaranty of payment satisfactory to the Carrier.

ITEM 55 LIABILITY OF CARRIER

- (a) The Carrier, while in the possession of any LHL Products, will not be liable for any loss thereof, or damage thereto, or delay, caused by an act of God, the public enemy, quarantine, the authority of law, or of public authority, strikes, riots, insurrection, inherent nature of the goods, or the act or default of the Shipper or consignee.

- (b) Any such losses of LHL Products will be charged proportionately to each Shipper in the ratio that his LHL Products, or portion thereof, received and undelivered at the time the loss occurs, bears to the total of all LHL Products then in the custody of the Carrier for transportation via the lines or other facilities in which the loss occurs; and the Carrier will be obligated to deliver, only that portion of such LHL Products remaining after deducting Shipper's proportion of such loss determined as aforesaid. Transportation charges will be assessed only on the quantity delivered.

ITEM 60 TITLE

A Tender of LHL Products shall be deemed a warranty of title by the party tendering, but acceptance shall not be deemed a representation by the Carrier as to title. The Carrier may, in the absence of adequate security, decline to receive any LHL Products which is in litigation, or as to which a dispute over title may exist, or which is encumbered by any lien of which the Carrier has notice.

ITEM 65 TIME LIMITATION ON CLAIMS

As a condition precedent to recovery for loss, damage, or delay to shipments, claims must be filed in writing with the Carrier within nine months and one day after delivery of the LHL Products, or in case of failure to make delivery, then within nine months and one day after reasonable time for delivery, based on Carrier's normal operations, has elapsed; and suits shall be instituted against the Carrier only within two years and one day from the day when notice in writing is given by the Carrier to the claimant that the Carrier has disallowed the claim or any part thereof specified in the notice. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, Carrier will not be liable, and such claims will not be paid.
